LETTER OF RECOMMENDATION

06 April 2011

To whom it may concern

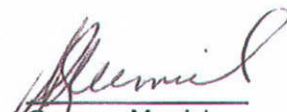

**RE: SAPREF (SHELL & BP) DURBAN RSA REFINERY – SUCCESSFUL
COMMISSIONING OF REMOSA SLIDE VALVES ON THE FCCU**

In 2008, Remosa supplied Sapref with a complete slide valve including high pressure hydraulic actuating control system and three additional high pressure hydraulic actuating control systems for the existing three slide valves operated on the FCCU. This included all associated control and safe guarding for the slide valves.

The upgrade although quiet complex was implemented and commissioned successfully in 2009, with Remosa providing commissioning support and assistance with the training of Sapref staff as well.

The project was a success and to date we are satisfied with the operation of the installed equipment.

Yours sincerely,
For Shell & BP South African Petroleum Refineries (Pty) Ltd

Graeme Merrick
Engineering Manager

Albert Mabaso
Instrument Manager
